

Wymondham Medical Partnership

Introducing the Wymondham Medical Centre Patient Participation Group (PPG)

The PPG is a group of volunteers from the patient population of the Wymondham Medical Centre. We aim to achieve the following objectives:

- Enable patients to be better informed and consulted about services provided by the Practice;
- Advise and inform the Practice on what matters most to patients, based on surveys and research;
- Act as a 'critical friend' to the Practice and help identify solutions where problems arise;
- Identify improvements to enable the Practice to become more efficient and effective at a time when NHS resources are stretched;
- Help patients to be pro-active about improving their health.

You can find out more information about the PPG at [**www.wymmed.co.uk**](http://www.wymmed.co.uk)

If you would like to volunteer to join the PPG please contact Rachelle Wolfe, PPG Chair: [**wmpppg@gmail.com**](mailto:wmpppg@gmail.com)

We all know that increasing demands and limited resources are stretching services provided by medical centres across the country. We would like to know how you would like to be kept up to date on the day to day work of Wymondham Medical Centre and, in anticipation of national changes to general practice, any potential future changes to services provided. Emails and text messages to mobile phones are the most efficient ways for the Practice to contact you.

-----✂-----
It would be helpful to know if you have any other preferred way of receiving generic information about the Wymondham Medical Centre other than email and text message? Please tick your preference.

- Practice website
- Facebook
- Television screens in waiting areas
- Newsletters
- Other (please specify) _____
